

Electric Fat Tire Cargo Tricycle

This electric tricycle features a high-speed motor for powerful performance. Its large-capacity battery and fat tires ensure a smooth ride and reliable traction.

Overview

Designed for Utility and Comfort

This electric fat tire cargo tricycle is engineered for stability, featuring a low step-through frame design that ensures easy access for riders of all abilities. Equipped with a robust electric motor and a long-lasting lithium battery, it provides reliable assistance across diverse terrains. With integrated cargo solutions like a rear rack and front basket, it serves as an ideal solution for efficient transport of goods or personal items.

Performance

Max Speed	32 KM/h
Running Distance	50 km

Electrical System

Motor Power

500 W

Motor Power

48 V

Voltage

Battery Capacity	10-21Ah Lithium
Controller Features	48V System, PAS Sensor, LCD/LED Display

Mechanical Specifications

Frame Material	Aluminum Alloy
Wheel Size	24/20 inches
Drivetrain	6/7 Speed

Safety and Braking

Braking System	Front and Rear Disc Brakes
