Product Overview

Essential Tool for Fence Management

This electric fence voltage tester is a vital tool for daily fence monitoring, designed to quickly assess the performance of your electric fence system. Featuring smart power technology, it automatically activates upon detecting a pulse and powers down after four seconds of inactivity to conserve battery life. It is compatible with both battery-powered and mains energizers, offering a reliable way to ensure livestock safety and containment.

Technical Specifications

Easy-to-read LED indicators display voltage levels from 1000V to 10000V.

Voltage Range

1000 V

Minimum

10000 V

Maximum

Indicator Levels

6 levels

Physical Properties

Dimensions	15.8 x 5.0 x 1.4 cm
Weight	80 g
Construction Materials	PP, ABS Plastic, Copper

Usage & Compatibility

Compact and portable design suitable for field use.

Includes a probe for grounding and a contact point for the fence wire.

Compatible Energizers

Battery Powered • Mains Powered

Operation

Pulse detection with auto-off (4 seconds)

Commercial Terms

Minimum Order Quantity	1000 pcs
