

Electric Fireplace with Carved Wood Mantel

This electric fireplace features a realistic flame effect and a carved wood mantel. It provides supplemental heat for rooms up to 400 square feet.

Overview

Elegant Electric Fireplace Solution

This electric fireplace combines a sophisticated carved wood mantel with a realistic flame effect, creating a warm focal point for any professional or residential space. Designed for convenience and safety, it features adjustable flame brightness and temperature settings, easily managed via the included remote control. The unit is built with a solid wood mantel in a dark brown finish, offering both aesthetic appeal and supplemental heating for areas up to 400 square feet.
