

Electric Fireplace with Realistic Log Effect

These electric fireplaces provide a realistic log fire effect using a wire heating element. They feature a thermostat, fire adjustment, remote function and a double thermal cut-off device for safety.

Product Overview

Sophisticated Heating Solution

The ND-20 series electric fireplaces deliver a realistic log fire effect, combining aesthetic appeal with efficient heating performance. Designed for safety and convenience, these units feature integrated thermostats, adjustable fire settings, and remote control operation. Built with a double thermal cut-off device, they ensure reliable and secure usage in professional or residential environments.
