

Electric Fondue Set with Temperature Control and Forks

This electric fondue set features a 170mm aluminum heating disc with high-temperature paint. It includes a cheese pot with a color-sprayed finish, six cheese forks with iron chrome-plated heads, and a stainless steel pot cover.

Product Overview

Versatile Electric Fondue and Cooking System

This multifunctional electric fondue set is designed for versatile kitchen use, featuring a high-temperature resistant aluminum heating disc and precise temperature control. The system includes multiple cooking vessels—a cheese pot, fry wok, and straight pot—making it suitable for cheese, chocolate, or oil fondue as well as general cooking. With CE, GS, EMC, and LVD certifications, this set ensures safety and reliability for professional or home environments.
