

# Electric Food Processor Mixer with Garlic Peeler

This electric kitchen tool functions as a food processor, mixer, and garlic peeler. It features a low-noise motor, a 1.5L glass bowl, and a stainless steel double blade.

## ADDITIONAL IMAGES

## Overview

### Versatile Kitchen Processing

This high-performance electric food processor is designed to streamline kitchen tasks, offering a multipurpose solution for chopping, mixing, and pureeing. Engineered with a powerful, low-noise motor and durable stainless steel blades, it ensures consistent results for ingredients ranging from meat and spices to ice. The unit features a user-friendly design with safety switches and food-grade materials, making it a reliable choice for efficient daily food preparation.

## Technical Specifications

<b>Watts</b>	500W
<b>Voltage</b>	100-240V AC 50/60Hz
<b>Features</b>	Low-noise, smooth motor with constant power.
<b>Bowl</b>	3.0L glass bowl
<b>Blade</b>	Stainless steel double blade
<b>Speed</b>	Two speeds with safety switch

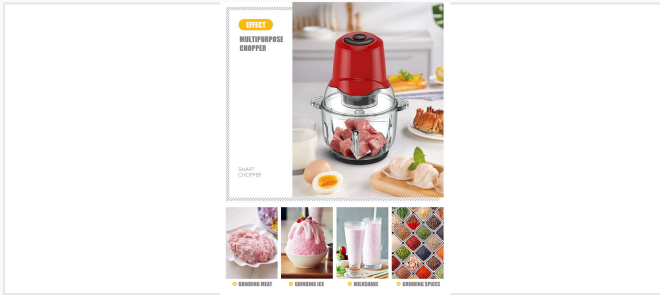

Core technical specifications including power, voltage, and blade configuration.

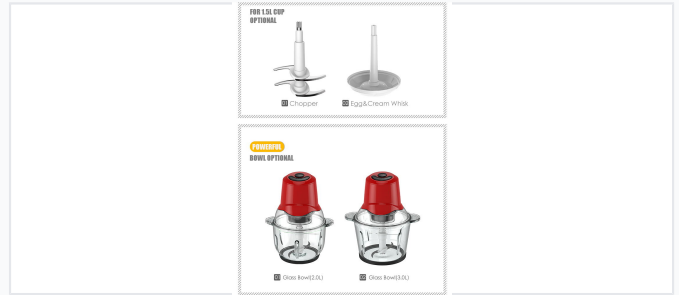

High-quality, detachable stainless steel double blades for efficient cutting.

<b>Power Rating</b>	500 W
<b>Voltage Range</b>	100-240V AC 50/60Hz
<b>Bowl Capacity Options</b>	1.5L, 2.0L, 3.0L
<b>Blade System</b>	Stainless steel double blade
<b>Speed Settings</b>	Dual speed control with safety switch

## Features

Versatile applications including meat grinding, ice crushing, and spice processing.

Flexible configuration options including whisk attachments and various bowl capacities.

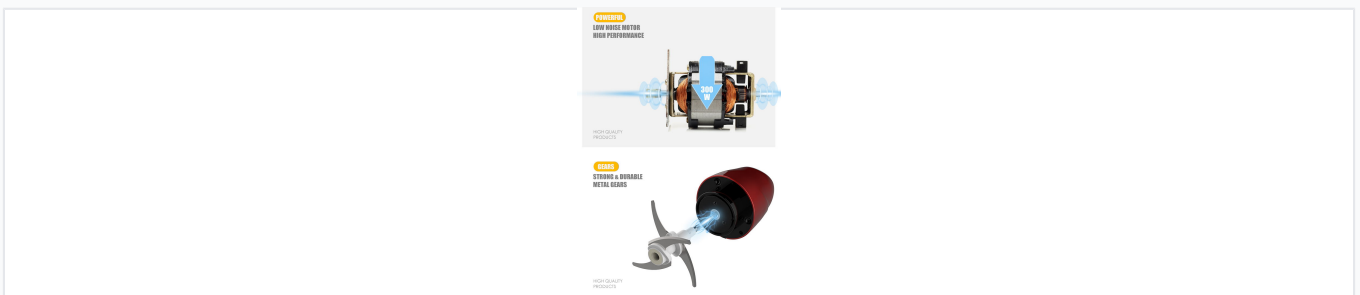

### Primary Functions

Chopping • Mixing • Pureeing • Garlic Peeling • Grinding Meat • Crushing Ice

### Available Attachments

- Chopper blade
- Egg and cream whisk

## Performance

Durable metal gears and high-performance motor design for long-lasting operation.
