Product Overview

Professional Footwear Maintenance

This electric footwear dryer provides an efficient solution for removing moisture and odors from various types of shoes. Utilizing gentle heat through advanced PTC elements, it protects footwear materials while preventing the growth of bacteria and fungi. The compact and ergonomic design ensures easy operation and storage, making it an essential tool for daily maintenance of sneakers, boots, and dress shoes.

Technical Specifications

Typical Drying Time	8.5 hours
Compatible Materials	Leather, Rubber, Plastic, Fabric

Usage Guidelines

Operating Instructions

- Remove loose inner soles before drying
- Ensure no obstructions are inside the shoe
- Connect directly to standard AC power socket
- Disconnect power immediately after drying cycle
- Use only for indoor intended purposes

Care & Safety

- Wipe clean with a damp, well-wrung cloth
- Avoid physical impact to prevent damage to PTC elements
- Store in a dry place when not in use
- Do not repair; discard if damaged for safety reasons
