

# Electric Footwear Dryer

This electric footwear dryer is designed to efficiently and safely dry footwear. It features dual heating elements for simultaneous drying and a compact design for easy storage.

## ADDITIONAL IMAGES

## Product Overview

### Efficient Footwear Care

This electric footwear dryer is designed to gently circulate air, effectively removing moisture from leather, rubber, plastic, and fabric shoes. By maintaining a controlled temperature, it helps prevent odor buildup and prolongs the lifespan of your footwear. The compact and durable design makes it a convenient solution for household use, ensuring your shoes are ready for wear.

## Technical Specifications

### Typical Drying Time

**8 hours**  
Minimum Time
