

Electric Forced Air Space Heater

This electric forced air heater features a streamlined appearance and a stable steel frame. It offers adjustable air outlet angles, motor thermal protection, and a stainless steel heating element.

Product Overview

Industrial Heating Performance

This electric forced air space heater is designed to provide reliable, efficient warmth for demanding environments like workshops, job sites, and garages. Featuring a robust heavy-gauge steel construction, it is built to withstand rigorous use while delivering consistent heat distribution. The unit is fully compliant with major international safety standards, making it a dependable choice for professional heating applications.

Technical Specifications

Heating Power

3000 W

Power Output

Voltage	208/240V
Heating Mechanism	Fan-forced air

Construction & Quality

Body Material	Heavy-gauge steel
---------------	-------------------

Compliance & Standards

Certifications	ETL, UL, SAA, CE, NOM
----------------	-----------------------

Applications

Ideal Environments

- Workshops
- Job sites
- Garages
- Offices
- Industrial spaces
