

Electric Forced Air Space Heater

This electric forced air space heater features waterproof and dustproof IP24 protection. It has a stainless steel heating element and adjustable, stable support.

Product Overview

Industrial Heating Solution

This electric forced air space heater is designed to provide exceptional heating performance in demanding environments such as workshops, job sites, and garages. With a powerful 3000-watt output, it efficiently distributes heat across wide areas to maintain a comfortable working climate. Built with a heavy-gauge steel body, this unit is engineered for durability and long-lasting service in industrial settings.

Technical Specifications

Power Output

3000 W

Heating Power

Voltage

208/240V

Construction & Design

Ideal Environments

- Garages
- Workshops
- Offices
- Industrial spaces
- Job sites

Body Material

Heavy-gauge steel

Compliance & Standards

Certifications

ETL, UL, SAA, CE, NOM
