Overview

Versatile Material Handling Solution

The FE3D electric forklift is a versatile and efficient material handling solution designed for both indoor and outdoor applications. Featuring a compact design for superior maneuverability in tight spaces, it is powered by an electric motor that ensures quiet, emission-free operation. With ergonomic controls, adjustable seating, and advanced safety features like automatic braking and overload protection, this forklift is built to enhance operator comfort and productivity in warehouses and distribution centers.

Performance Metrics

Lifting Capacity

3000 lbs

Lifting Capacity

Max Lift Height

157 inches

Travel Speed

8.7 mph

Technical Specifications

Design Features

- Compact chassis for tight spaces
- Ergonomic operator cabin
- Adjustable seating
- Emission-free electric powertrain

Battery System

48V

Safety Features

Automatic Braking, Overload Protection, LED Lighting, Clear View Mast
