

# Electric Fruit and Vegetable Juice Extractor

This electric juice extractor efficiently extracts juice from various fruits and vegetables. It features a pulp separation system, transparent juice container, and a powerful motor for optimal performance.

## ADDITIONAL IMAGES

## Overview

### High-Efficiency Juice Extraction

This electric juice extractor is designed for efficient processing of various fruits and vegetables, featuring a robust all-copper motor for reliable performance. With a 60mm feeding port and a pulp separation system, it simplifies the juicing process while maintaining high output quality. Built with food-grade ABS and AS plastics, this appliance combines a novel, compact design with ease of use and cleaning, making it a practical solution for fresh juice production.

## Technical Specifications

Motor Type	All copper motor
Feeding Port Diameter	60 mm
Power Rating	260 W
Voltage Compatibility	110V-240V, 50/60Hz

## Materials & Design

Material Composition	ABS Plastic, AS Plastic, Food Grade
