

Electric Fruit and Vegetable Juice Extractor

This electric juice extractor quickly processes fruits and vegetables with its powerful 700W motor and two-speed settings. It efficiently separates juice and pulp, offering continuous juicing and easy cleaning with its removable components.

Product Overview

Professional Juice Extraction

This electric juice extractor is designed for high-performance extraction from a wide variety of fruits and vegetables. Built with a durable stainless steel housing and surgical-grade stainless steel blades, it ensures longevity and reliable performance even with acidic produce. The unit incorporates safety features like a secure locking lid and a no-start mechanism to prevent operation unless properly assembled, making it a safe and efficient choice for professional environments.

Performance & Power

Motor Power

700 W

Power

Electrical Requirements	100-240V AC / 50-60Hz
