

Electric Fruit and Vegetable Juicer

This electric juicer efficiently extracts juice from various fruits and vegetables. It features a powerful motor and a large feeding chute, separating juice from pulp for convenient home use.

Overview

Professional Juice Extraction

The Juicer J4 is a robust kitchen appliance engineered for high-efficiency juice extraction from a wide variety of fruits and vegetables. Its powerful motor and large feeding chute design significantly reduce preparation time by processing whole ingredients with ease. Designed with user convenience in mind, the unit features detachable, dishwasher-safe components and durable, BPA-free construction for long-lasting performance.
