

Electric Fruit and Vegetable Juicer

This electric juicer features a powerful 650 watt motor and two-speed control. It has a large feeding chute to accommodate whole fruits and vegetables, a 2-liter pulp container, and a 0.8-liter juice container.

Product Overview

High-Efficiency Centrifugal Juicer

This powerful centrifugal juicer is designed for continuous, high-volume juice extraction, making it ideal for busy kitchens. It features an extra-large feeding chute that accommodates whole fruits and vegetables, eliminating the need for time-consuming chopping. With a robust motor and smart design elements like automatic pulp ejection and a safety locking mechanism, it offers both performance and ease of use.

Technical Specifications

Rated Power	650 W
Speed Settings	2

Capacity & Design
