

Electric Fruit and Vegetable Juicer with Stainless Steel Housing

This electric juicer efficiently extracts juice from various fruits and vegetables. It features a stainless steel housing, two-speed control, and a built-in safety system.

Product Overview

High-Performance Electric Juicer

This electric fruit and vegetable juicer is engineered with a durable stainless steel housing and precision-engineered stainless steel blades and filters. Designed for versatility, it features a 65mm diameter feed tube that accommodates a wide variety of produce, making it an excellent choice for efficient extraction. With its built-in safety systems and anti-slip feet, this appliance ensures both operational reliability and user safety in any kitchen environment.

Technical Specifications

Power & Voltage

220 V

Voltage

600 W

Max Power

60 Hz

Frequency

Capacity Details

Component	Capacity
Pulp Container	1.5 L
Juice Cup	450 ml

Features & Design

Key Features

- Stainless steel housing for durability
- 65mm diameter feed tube
- Two-speed control with pulse option
- Stainless steel blade and filter system
- Built-in safety system
- Anti-slip feet for stability

Construction Materials

Stainless Steel Housing, Stainless Steel Blade, Stainless Steel Filter
