

Electric Fuel Pump EFP381305G

This electric fuel pump ensures reliable fuel delivery to the engine. It is compatible with AIRTEX models E7154 and E2471, maintaining optimal performance and fuel efficiency.

Product Overview

High-Performance Electric Fuel Pump

This electric fuel pump is engineered for reliability and precision, ensuring consistent fuel delivery to the engine for optimal vehicle performance and efficiency. Manufactured to meet rigorous quality standards, the unit undergoes 100% testing to guarantee durability in demanding automotive conditions. It serves as a direct replacement for specific industry-standard models, making it a dependable choice for maintenance and repair applications.

Technical Specifications

Operating Pressure	3 Bar
Flow Rate	105 L/h

Compatibility

Cross Reference Numbers	E7154, E2471
Vehicle Application	Jeep

Quality & Standards

Certifications

ISO/TS 16949:2002 • CE • TUV

Manufacturing Capabilities

Daily Production Output

18000 pcs
Daily Output

R&D and Development

Metric	Value
Development Cycle (Pump)	60-90 days
Development Cycle (Modules)	90-180 days
Engineering Team	63 Engineers
