

Electric Fuel Pump for Chevrolet and GMC

This electric fuel pump is designed for use in Chevrolet and GMC vehicles. It is engineered to deliver consistent fuel pressure and flow, ensuring optimal engine performance.

Product Overview

High-Performance Electric Fuel Pump

This electric fuel pump is engineered for precise performance and reliability in Chevrolet and GMC vehicle applications. Each unit undergoes rigorous 100% testing to ensure it meets strict quality standards for consistent fuel pressure and flow. Designed to deliver optimal engine efficiency, this component is a dependable replacement solution for automotive fuel systems.

Performance Metrics

Operating Pressure

3 Bar

Pressure

Flow Rate

165 L/h
