

Electric Fuel Pump for Chrysler Vehicles

This electric fuel pump is designed for Chrysler vehicles. It ensures consistent fuel delivery to the engine, optimizing performance and fuel efficiency.

Product Overview

High-Performance Fuel Delivery

This electric fuel pump is engineered for Chrysler vehicles to ensure consistent and reliable fuel delivery to the engine. It is precisely manufactured and undergoes rigorous 100% testing to meet or exceed OEM specifications. Designed for durability and efficiency, this unit helps optimize engine performance and maintains fuel system integrity.

Technical Specifications

Operating Pressure	3 Bar
Flow Rate	110 L/h
Cross Reference	PEFP: P44NK
Model Number	EFP381603G

Quality & Standards

Certifications	TUV, ISO/TS 16949:2002, CE
----------------	----------------------------

Manufacturing Capabilities

Production Metrics

3.8 Million Sets

Annual Production Capacity

18000 pcs

Daily Output

Available Range

- 400+ Pump Part Numbers
- 300+ Module Part Numbers
- 7 Different Series
