

Electric Fuel Pump for OPEL, OLDSMOBILE, and PONTIAC

This electric fuel pump is designed for OPEL, OLDSMOBILE, and PONTIAC vehicles. It ensures reliable fuel delivery to the engine, maintaining optimal performance.

Product Overview

High-Performance Electric Fuel Pump

This electric fuel pump is engineered to deliver reliable and consistent fuel flow, ensuring optimal engine performance for compatible vehicles. Each unit is manufactured to precise standards and undergoes 100% testing to guarantee quality and durability. Designed to meet or exceed original equipment specifications, this pump provides a dependable solution for automotive fuel system maintenance.

Technical Specifications

Operating Pressure

3 Bar

Pressure

Flow Rate

110 L/h

Flow

Compatibility

Vehicle Applications

OPEL, OLDSMOBILE, PONTIAC

Quality & Compliance

Certifications

TUV • ISO/TS 16949:2002 • CE
