

Electric Fuel Pump for VW Vehicles

This electric fuel pump is designed for VW vehicles, ensuring consistent fuel delivery. It features robust construction for durability and provides a direct fit replacement for easy installation.

Product Overview

High-Performance Fuel Delivery

This electric fuel pump is engineered to provide consistent and reliable fuel delivery under all operating conditions. Designed specifically for VW vehicles, it ensures optimal engine performance and meets or exceeds OEM specifications. The unit is precisely manufactured and undergoes 100% testing to guarantee durability and a direct fit for easy installation.

Performance Metrics

Operating Pressure

3.2 Bar

Pressure

Flow Rate

120 L/h
