

Electric Fuel Pump Module for Audi Skoda VW

This electric fuel pump module ensures consistent fuel supply to the engine, optimizing performance and efficiency. It is engineered with high-quality materials for durability and reliability.

Product Overview

High-Performance Fuel Delivery

This electric fuel pump module is engineered to ensure consistent and reliable fuel supply to the engine, optimizing overall vehicle performance and efficiency. Precisely manufactured and 100% tested, this unit is designed to meet rigorous quality standards. It serves as a direct, durable replacement for original equipment, ensuring compatibility and seamless operation.

Technical Specifications

Pressure	4 Bar
Flow Rate	110 L/h

Compatibility

Part Numbers

- EFM0000404
- EFP500402G

Vehicle Applications	Audi, Skoda, VW
Cross Reference	VDO: E22-041-095

Certifications

Quality Certifications

TUV • ISO/TS 16949:2002 • CE
