Product Overview

Precision Brewing Experience

This modern electric kettle combines a transparent glass body with stainless steel accents, offering both style and functionality for any professional setting. Equipped with precise temperature control and a digital display, it allows users to customize their brewing process for optimal results. The inclusion of a removable tea infuser and an illuminated LED ring ensures ease of use and visual feedback during operation.

Technical Specifications

Power Output

2200 W
Max Power

Capacity	1.7 L
Voltage	220-240V
Frequency	50/60 Hz

Design & Features

Key Features

- 360° Rotating Base
- Concealed Heating Element
- Stainless Steel Decoration
- Digital Temperature Control
- Removable Tea Infuser
- Illuminated LED Indicator

Control Interface

TEMP+ • TEMP- • ON/OFF • PROG

Safety Features

Boil Dry Protection
