

Electric Grass and Bush Shear with Telescopic Tube

This electric grass and bush shear features a telescopic tube for extended reach and comfortable operation. It is designed for trimming grass edges and shaping bushes with precision.

Product Overview

Versatile Trimming Solution

This 3.6V electric grass and bush shear is designed for efficient garden maintenance, featuring a telescopic tube for extended reach and reduced user strain. Equipped with a quick-change blade system, it effortlessly transitions between grass trimming and shrub shaping. The tool includes a sealed gearbox for enhanced safety and a rotary handle for improved ergonomic control during operation.

Technical Specifications

Battery Capacity	1300 mAh
Voltage	3.6 V
No-Load Speed	2200 cuts/min
Charging Time	3-5 Hours

Blade Performance

Shrub Blade Performance

115 mm

Cutting Length

8 mm

Cutting Capacity

Grass Blade Cutting Width	70 mm
Blade Material	65Mn Steel

Features

Key Features	Quick Change Blade System, Rotary Handle, Telescopic Tube, Sealed Gear Box
