

Electric Hair Curling Iron with Swivel Cord

This electric hair curling iron operates at 25W and is suitable for both 110V-125V and 220-240V power supplies. It features a PTC fast heating element and a 360-degree swivel power cord.

Product Overview

Professional Styling Performance

This electric hair curling iron is engineered for efficiency and ease of use, featuring a high-quality cylindrical barrel designed for even heat distribution. The ergonomic handle ensures comfortable grip and precise control during styling sessions, while the integrated spring-loaded clamp securely holds hair strands in place. Perfect for creating consistent curls and waves, this device is a reliable tool for professional styling needs.
