

Electric Hammer Drill

This professional electric power tool is designed for heavy-duty drilling and hammering applications. It features a robust motor, ergonomic design for comfortable handling, and variable speed control for precision.

Overview

Professional Performance

This professional electric power tool is engineered for demanding drilling and hammering applications in construction, renovation, and demolition environments. It features a robust motor and variable speed control, ensuring precision across various material types. The ergonomic design and included side handle provide enhanced control and comfort during extended use.

Technical Specifications

Tool Type

Rotary Hammer Drill • Electric Power Tool

Model Number

ZT2-26026

Features

Control Features

- Variable speed control
- Ergonomic handle design
- Adjustable side handle
- Depth rod for precision

Applications

Primary Applications

Construction, Renovation, Demolition, Heavy-duty drilling
