Product Overview

Professional Mixing Performance

This electric handheld mixer is engineered for high-efficiency mixing of various viscous materials, including putty, mortar, resins, and emulsion paints. It features a robust design with triple gear reduction to increase torque for heavy-duty applications, while the ergonomic handle minimizes user fatigue. With infinitely variable speed control, it ensures smooth power transmission and prevents splashing, making it an ideal choice for both professional job sites and demanding DIY projects.

Technical Performance

Input Power

1400 W

Input Power

No-Load Speed

950 r/min

Max Speed

Voltage/Frequency 230V / 50Hz

Connection M12, 14

Drill Capacity 13 mm

Max Mixing Paddle Diameter 120 mm

Safety and Compliance

Protective Type
Double Insulation

Protective Class
Class II

Logistics

Packaging Specifications

Attribute	Value
Units per Carton	6 pcs
Carton Dimensions	77 x 33.5 x 48 cm
