

Electric Heating Machine with Mesh Vent

This electric heating machine provides efficient heating for a variety of applications. It features a mesh-covered vent for optimal heat dissipation and includes mounting brackets for secure installation.

Product Overview

Efficient Heating Solution

This electric heating machine is designed for reliable performance in various heating applications. Featuring a compact, rectangular housing with a front-facing mesh vent, it ensures efficient heat dissipation and consistent operation. The unit is built for durability and ease of use, making it an ideal choice for professional environments requiring dependable heat management.

Technical Specifications

Power Rating

1400 W

Power Consumption

Voltage	120V
Frequency	60Hz
