

Electric Herbal Decoction Pot

This electric decoction pot is designed for traditional Chinese medicine preparation. It features a ceramic body with a spout, handle, lid, built-in heating element, and a control panel for adjusting cooking settings.

Product Overview

Traditional Wisdom Meets Modern Convenience

This electric herbal decoction pot combines the time-honored effectiveness of ceramic heating with modern automatic controls. Designed specifically for preparing traditional Chinese medicine, it ensures optimal extraction of herbal essence through slow, steady heat. With its versatile functionality, it serves as a reliable appliance for decocting, brewing tea, or preparing medicinal cuisine.
