Overview

High-Performance Electric Pressure Washers

These professional-grade electric high-pressure washers are designed for both industrial and domestic cleaning applications. Engineered with a self-priming function, a total stop system, and a built-in thermal protector, these units ensure safety and longevity during operation. Available in multiple configurations, they offer versatile power and pressure options to suit various cleaning requirements, from light maintenance to heavy-duty tasks.

Key Features

Core Features

Self-priming function, Total stop system, Built-in thermal protector, Portable design, Adjustable spray nozzle

Standard Accessories

Included Accessories

- Spray gun with adjustable nozzle
- 5m water outlet hose
- Pressure hose
- 5m power cord with plug
- Water inlet screw
- Nozzle cleaning pin
- Detergent tank

Performance Metrics

Performance Range

2400 W

Max Motor Power

150 bar

Max Pressure

13 L/min

Max Flow Rate

Technical Specifications

Model Specifications

Model	Motor Type	Power (W)	Max Pressure (bar)
LWA28C/G Series	Carbon/Induction	1200	100
LWA1611C/G Series	Carbon/Induction	1600	140
LWGY-001-70	Induction	1200	100
LWGY2408	Induction	2400	100

Electrical

Voltage & Frequency

220-240V 50Hz
