

Electric Hoist WT-200/400

This electric hoist is designed for lifting applications in industrial environments. It features a hook and chain mechanism for secure load attachment and includes a wired remote control for operation.

Overview

Versatile Lifting Solution

This electric hoist is designed for reliable and efficient lifting in industrial and workshop environments. It offers dual-mode operation, allowing for a 200kg capacity with a single line or a 400kg capacity with a double line configuration. Built for durability, it features a robust motor and a high-strength cable, making it a dependable tool for various material handling tasks.

Performance Metrics

Lifting Capacity

200 kg

Single Line

400 kg

Double Line

Lifting Speed

10 m/min

Single Line

5 m/min

Double Line

Lifting Height

12 m

Single Line

6 m

Double Line

Technical Specifications

Electrical Requirements

| Parameter | Value |
|---------------|--------------|
| Rated Voltage | 220-230V |
| Frequency | 50Hz |
| Power Output | 780W |
| Duty Cycle | S3 20% 10min |

Cable Specifications

- Length: 12m
- Diameter: 3.6mm
- Resister Cable Capacity: e1000kg

Physical Dimensions

Shipping Details

| Attribute | Value |
|-------------------------|---------------|
| Packing Size | 45x44x19.5cm |
| Quantity per Carton | 2 pcs |
| Gross Weight | 35 kg |
| Net Weight | 33 kg |
| Unit Dimensions (LxWxH) | 387x152x185mm |
