

# Electric Hot and Cold Water Dispenser

This electric water dispenser provides both hot and cold water options. It features a cooling system for chilled water and a heating system for hot water.

## ADDITIONAL IMAGES

## Product Overview

### Professional Water Dispensing Solution

This electric hot and cold water dispenser is designed for reliable performance in both home and office environments. It features a robust heating and cooling system, ensuring you have access to temperature-controlled water whenever needed. Built with high-quality materials, including a durable galvanized sheet iron side panel and food-grade silicone components, this unit balances efficiency with long-term durability.

## Performance Metrics

### Heating Performance

**580 W**

Power

**5 L/H**

Capacity

**95 °C**

Max Temp

### Cooling Performance

**90 W**

Power

**2 L/H**

Capacity

**5 °C**

Min Temp

## Technical Specifications

### Internal Tank Volumes

Tank Type	Volume
Hot Tank	1.5L
Cold Tank	3.3L

### Electrical Requirements

110-127V, 220-240V, 50/60Hz

## Construction & Design

### Build Materials

- 0.5mm Galvanized sheet iron side panel
- 100% new ABS plastic
- SS304 Water Tank
- Food grade silicone tube

## Logistics

### Dimensions & Weight

Metric	Value
Packing Size	330*350*530mm
Gross Weight	13.5kg
Net Weight	13kg
