

# Electric Hot Pot with Adjustable Temperature

This electric hot pot features adjustable temperature control, a transparent glass lid, and a non-stick interior for easy cleaning. The appliance offers multiple power settings, ranging from 500W to 1800W, catering to various cooking needs.

## Overview

### Versatile Electric Hot Pot

This 3.5L electric hot pot is designed for efficient and versatile cooking, featuring an adjustable temperature control system that ranges from 500W to 1800W. Built with a durable aluminum pot with a non-stick coating, it ensures easy food release and simple cleanup. The unit includes safety features like cool-touch handles and a tempered glass lid, making it a reliable choice for boiling, simmering, and stewing in a professional or commercial kitchen setting.
