Product Overview

Versatile Heat Therapy

This electric hot water bag is designed for both comfort and therapeutic use, featuring a waist warmer design for targeted relief. It provides consistent warmth to help soothe muscle, shoulder, knee, and neck pain while promoting blood circulation. With rapid 15-minute charging, it offers 2 to 5 hours of continuous heat, making it an ideal companion for cold winters or recovery.

Technical Specifications

Voltage	100V/220V
Power	360 W
Frequency	50-60Hz
Dimensions	29x20x5cm
