

# Electric Hydraulic Log Splitter

This electric hydraulic log splitter provides a simple and safe way to split firewood. Its sturdy design and powerful hydraulic system make cutting logs down to size fast and convenient.

## Overview

### High-Performance Electric Hydraulic Log Splitter

This electric hydraulic log splitter is engineered for efficient and reliable wood processing in both home and light commercial environments. Featuring a robust 2.5kW motor and a powerful 80kN push force, it handles demanding splitting tasks with ease. The compact design, integrated with wheels, ensures excellent portability and ease of use, making it an essential tool for effective log preparation.

## Performance Metrics

### Push Force

**80 kN**

Push Force

**2300 psi**

System Pressure

### Wedge Moving Speed

30 mm/s

## Motor & Electrical

### Motor Specifications

90L/2, 230V/50Hz/2.5kW

## Hydraulic System

### Cylinder Specifications

Component	Measurement
Stroke	20" (505mm)
Rod Diameter	1.6" (40mm)
Piston Diameter	2.5" (63mm)

### Wedge Material

High Carbon Wear-alloy

### Control Valve

Auto Return

## Capacity & Dimensions

### Log Capacity

- Max Length: 22.8" (580mm)
- Opening: 10" (250mm)

### Overall Dimensions (L\*W\*H)

31.2" x 19" x 60" (792mm x 483mm x 1524mm)

### Weight

153 kg

## Mobility

### Tire Size

8" x 2" (200mm x 50mm)
