Product Overview

Professional Impact Drill

This versatile impact drill is engineered for professional contractors requiring reliability in masonry, concrete, and wood applications. Featuring a powerful 600W motor, it combines electric hammer and drill functions to break down dense materials efficiently. With variable speed control and a heavy-duty chuck, this tool offers the precision and grip strength necessary for demanding job sites.

Technical Specifications

Rated Power	600 W
Voltage / Frequency	220~240V / 50~60Hz
No-load Speed	0-2600/min
Impact Rate	0-42000/min
Maximum Drilling Diameter	13 mm
Loading Capacity	1.5-13mm

Physical Dimensions

Size and Weight

270 mm
Length

63 mm
Width

210 mm
Height

1.65 kg
Weight

Features

Core Features

- Compact and lightweight design
- Three-jaw powerful chuck
- Dual drilling and percussion modes
- Shockproof rubber handle
- Electronic stepless speed regulation
- Rotating carbon brush holder for consistent reverse power
- Accurate depth gauge
- 360° auxiliary handle

Operating Modes

Drilling • Percussion Drill
