

Electric Indoor Barbecue Grill

This electric barbecue grill is designed for indoor use. It features a stainless steel grilling rack, heating elements, a protective shield, and a control knob for adjusting temperature settings.

Product Overview

Professional Indoor Grilling

This high-performance electric barbecue grill is designed for versatile indoor and outdoor cooking. Featuring a powerful 2000W heating element and auto-thermostat control, it ensures consistent results for various heat operations. The unit prioritizes safety and convenience with a cool-touch housing, removable parts for easy cleaning, and a micro-switch safety cut-off system.
