

Electric Insect Killer with UV Light

This electric insect killer attracts and eliminates flying insects. It uses a UV light source to lure insects into an electrically charged grid, resulting in their electrocution.

Product Overview

Effective Pest Control Solution

The JS30-T4W is a professional-grade electronic insect killer designed to attract and eliminate flying pests efficiently. Utilizing a powerful UV light source, it lures insects into an electrically charged grid for quick and safe removal. Its versatile design is suitable for both indoor and outdoor environments, offering a reliable solution for controlling mosquitoes, flies, and other nuisance insects.

Technical Specifications

Model Number	JS30-T4W
Attraction Method	UV Light
Elimination Method	High-voltage electrically charged grid

Features

Safety Features

- Protective safety cage
- High-voltage grid protection

Usage Environment	Indoor, Outdoor
-------------------	-----------------

Maintenance

Cleaning & Maintenance	Removable collection tray for easy disposal
