

Electric Instant Water Heater

This electric instant water heater provides hot water instantly without the need for a storage tank. It features digital controls for temperature adjustment and is designed for wall mounting.

Product Overview

Compact Instant Heating Solution

The PRC9011 is a high-performance electric instant water heater designed for modern residential and commercial bathrooms. Engineered for efficiency and safety, this unit provides immediate hot water with precise temperature control via an integrated digital interface. Its compact, wall-mounted design ensures it fits seamlessly into limited spaces while maintaining reliable operation in high-moisture environments.

Technical Specifications

Model Number	PRC9011
Series	DC-1800

Performance Metrics

Operational Temperature

40 °C
Current Setting

Design Features

Control Interface	Digital Display, Temperature Adjustment, On/Off Switch
Installation	Wall-mounted

Compliance & Safety

Environment Compatibility

Water Resistant • Suitable for Wet Environments
