

# Electric Jig Saw for Wood and Metal

This electric jig saw is a versatile power tool used for making precise cuts in various materials. It features an adjustable base for bevel cuts and an integrated dust blower to maintain a clear cutting line.

## Product Overview

### Versatile Electric Jig Saw

This electric jig saw is a versatile power tool engineered for precision cutting across a variety of materials, including wood and steel. Designed for hand-held operation, it features an ergonomic build suitable for both professional and DIY applications. With adjustable gear control and a robust motor, it offers the adaptability needed for diverse project requirements.

## Technical Specifications

### Motor Power

**450 W**

Input Power

### Voltage Compatibility

120V/60Hz, 230V/50Hz

## Performance

### No-Load Speed

3000 r/min

### Gear Adjustment

6 gears

## Cutting Capacity

### Max Cutting Depth

Material	Depth
Wood	55mm
Steel	3mm

## Design and Operation

### Operation Mode

Hand held
