

Electric Jig Saw for Wood, Metal, and Plastic

This electric jig saw is suitable for cutting wood, metal, and plastic. It features variable speed control, bevel cutting capability, and a blade change system.

Overview

Versatile Cutting Performance

This electric jig saw is designed for precision cutting across a variety of materials including wood, metal, and plastic. Engineered for efficiency, it features a robust 600W motor and variable speed control, allowing users to adapt to different cutting requirements. With a maximum cutting depth of 65mm, it is a reliable tool for both workshop and job site applications.

Technical Specifications

Rated Input Power	600 W
Voltage/Frequency	230V/50Hz
No-load Speed	2800 rpm

Performance

Key Features

- Variable speed control
- Bevel cutting capability
- Quick blade change system

Max Cutting Depth	65 mm
Compatible Materials	Wood, Metal, Plastic
