

Electric Juice Extractor with Blending Attachment

This electric juicer efficiently extracts juice from various fruits and vegetables. A blending attachment is included for making smoothies and other blended drinks.

Product Overview

Versatile Kitchen Extraction Solution

This electric juicer offers a dual-function design, combining efficient juicing capabilities with a dedicated blending attachment. Designed for versatility in commercial or high-volume kitchens, it includes a clear, durable jug for monitoring extraction levels and a separate blending container for smoothies or sauces. The system is built for ease of maintenance, featuring an included cleaning tool to ensure hygiene and longevity.
