

Electric Kettle and Two-Slice Toaster Set

This set includes an electric kettle and a two-slice toaster. The kettle features a rapid boil system, automatic shut-off, and a removable limescale filter, while the toaster has adjustable browning settings and defrost/reheat functions.

Product Overview

Breakfast Set Solution

This coordinated breakfast set features a stylish stainless steel housing, combining a high-capacity electric kettle with a versatile two-slice toaster. Designed for both efficiency and safety, the appliances include essential features like automated power cut-offs, dry boil protection, and adjustable browning controls. This set is an ideal choice for hospitality or residential kitchen environments requiring reliable, daily-use appliances.
