

# Electric Kettle for Rapid Water Boiling

This electric kettle is designed for rapid water boiling. It features a stainless steel body for durability and includes automatic shut-off and boil-dry protection for safety.

## Product Overview

### Rapid Boiling Performance

This electric kettle is engineered for efficiency, featuring a high-speed heating element that minimizes wait times for boiling water. Its robust stainless steel construction ensures long-term durability and simplifies maintenance, making it an ideal choice for professional environments. Designed with user safety in mind, the unit includes essential protections such as automatic shut-off and boil-dry prevention.

## Design and Build

Body Material	Stainless Steel
Handle Design	Ergonomic black handle
Lid Type	Secure locking mechanism

## Safety Features

Safety Protections	Automatic Shut-off, Boil-dry Protection
