

Electric Kettle for Rapid Water Heating

This electric kettle is designed for rapid water boiling. It is ideal for quickly heating water for tea, coffee, or other hot beverages.

Product Overview

Efficient Rapid Heating Solution

This electric kettle is designed for rapid water heating, making it an ideal choice for quickly preparing tea, coffee, and other hot beverages. Featuring a sleek, modern design with a durable stainless steel spout and a black body, it combines functionality with aesthetic appeal. Its intelligent steam sensing mechanism ensures reliable operation by automatically cutting off power once the water reaches a boil.

Technical Specifications

Heating Principle	Steam-driven bimetal temperature sensing
Safety Features	Auto-power cut-off, Steam sensing, Non-automatic reset

Design & Build

Key Components

- Stainless steel spout
- Black body construction
