Product Overview

High-Performance Kettle Heating Solution

This electric kettle heating plate is engineered from food-grade stainless steel, featuring a durable mirror finish and sanding design for enhanced corrosion resistance and easy maintenance. Designed for precision and reliability, the manufacturing process adheres strictly to ISO9001 and ISO9002 quality management standards. It serves as an ideal component for electric kettles, offering customizable options through OEM/ODM processing based on client specifications.

Technical Specifications

Voltage	230 V
Power Rating	700 W
Material	Food-grade stainless steel
Surface Finish	Mirror Finish, Sanding Design

Compliance & Standards

Quality Standards

ISO 9001 • ISO 9002
