

Electric Kettle with Green Accents

This electric kettle features a modern design with a white body and green accents. The circular windows allow users to monitor the water level while boiling.

Product Overview

Modern Design for Your Kitchen

This electric kettle combines a sleek white finish with vibrant green accents, making it a stylish addition to any professional kitchen or breakroom. Designed for efficiency, it features an ergonomic handle and a precision spout for smooth, controlled pouring. The integrated circular water level windows provide at-a-glance monitoring, ensuring convenience and safety during every boil.
