

# Electric Kettle with Plastic Housing

This electric kettle features a plastic exterior and food-grade plastic materials. It is equipped with a double or single sensor controller.

## ADDITIONAL IMAGES

## Product Overview

### Professional Grade Electric Kettle

This electric kettle features a durable housing made from food-grade materials, ensuring safety and hygiene in every use. Designed for efficiency, it utilizes a sophisticated dual-sensor controller system for precise temperature management. With its modern aesthetic and functional design, it is an ideal solution for consistent, reliable water heating in commercial or residential settings.

## Technical Specifications

### Power Consumption

**1500 W**

Power Output

### Electrical Requirements

- 120V Voltage
- 60Hz Frequency

### Capacity

1.7 L

## Design & Features

### User Experience

- 360-degree swivel base
- Concealed heating element
- Removable water filter
- Red power indicator light

### Construction

Food-grade plastic exterior with stainless steel interior

### Safety Functions

Automatic shut-off, Boil-dry protection, Dual-sensor controller

## Certifications

### International Standards

GS • CE • CB • ROHS • LFGB
