

Electric Kettle with Polished and Brushed Finish

This electric kettle features a durable polished and brushed stainless steel finish. It is equipped with a rapid boiling system, safety auto shut-off, and a cordless design.

Product Overview

Efficiency and Durability Combined

This electric kettle features a sophisticated polished and brushed stainless steel finish, offering both durability and a modern aesthetic for any professional setting. Designed for high performance, it includes a rapid boiling system to minimize wait times and a cordless design for effortless pouring. With safety features like auto shut-off and user-friendly elements such as a 360-degree swivel base, this kettle provides a reliable and convenient solution for daily hot water needs.
