

Electric Kettle with Stainless Steel Body

This electric kettle is designed for efficient and rapid water boiling. It features a stainless steel body with a water level indicator and a capacity of up to 1.7 liters.

Product Overview

Efficient Stainless Steel Kettle

This durable electric kettle is engineered for rapid and efficient water boiling, making it an ideal choice for office or hospitality environments. Featuring a robust stainless steel body, it combines sleek aesthetics with practical functionality, including a clear water level indicator for precise filling. Safety is prioritized with integrated automatic shut-off and boil-dry protection mechanisms.
